

Opportunities for Pre-Med College Applicants

- **Volunteer:** Whether it's at a hospital, a doctor's office or an elderly home, gaining first-hand exposure to those in the medical profession - as well as a diverse range of patients - is a great way to learn more about and demonstrate your interest in the field.
 - [Public Health Volunteering](#)
 - [Red Cross Youth](#)
 - [Junior Volunteer Program at Massachusetts General Hospital](#)
- **Research or Internship:** Get into a lab or hit the books with these research opportunities and internships. Most of them take place over the summer, but a less formal program can be extended into the academic year.
 - [Johns Hopkins School of Medicine Summer Internship Program](#)
 - [Dana Farber Cancer Institute Student Training Program](#)
 - [National Student Leadership Conference Medicine & Health Care](#)
 - [CDC Museum Disease Detective Camp](#)
 - [Florida Institute for Neuroscience Summer Research Internship](#)
- **Summer health and STEM-related programs:** During the summer, many med schools open their campuses to high school programs. Several universities also offer strong, and well respected, STEM-related summer programs.
 - [Stanford High School Programs](#)
 - [Teachers and High School Students Program \(TAHSS\) at Tufts University](#)
 - [Georgetown Science & Medical Immersion Program](#)
 - [Worcester Polytechnic Institute Frontiers Program](#)
 - [Cornell University CATALYST Academy](#)
 - [Texas A&M Summer Mathematics Research Training High School Camp](#)
 - [Williams College Math Camp](#)
 - [Stony Brook University Simons Summer Research Program](#)
